Computer scientist

Nabeel Ahmed
M. Sc. Physics

Senior,
Technology Consulting,
EY ifb SE

Your qualifications can take you places.

Mathematics, economics, biology, chemistry, physics or (business) informatics - these or similar subjects allow a wide variety of career paths with us. We are experienced in supporting companies from the financial sector in their digital transformation.

Ideally, the basis for this is a master's degree in the above-mentioned subjects or other university degrees in natural sciences or economics.

At EY ifb, newcomers receive an intensive training phase that imparts all the professional, technical, and methodological skills required for a successful start as a consultant. The focus is on specialist and IT topics, as well as leading practices in consulting. Experienced colleagues accompany and support the candidates on this path.

We have a passion for complex tasks. For this, we need analytical thinking, a love for demanding challenges, an affinity for IT and the joy of advising people and convincing them with extraordinary recommendation.

Forward

“

Just like my passion for adventure on two wheels, I approach my work at EY ifb with dynamism and drive.

“

Traveling broadens
my horizons.
My curiosity drives
me to constantly
explore new ways of
solving problems.

Sky reachers

Your journey at EY ifb.

Everyone brings individual qualities and skills with them on the way to their summit. Some stand out for their natural leadership qualities and are able to plan a route and lead the group safely. Others bring individual qualities and skills that are crucial in helping the group climb the mountain. Whatever your goals, there are various career paths open to you at EY ifb, no matter which route you want to take. Whether you want to become a team leader or focus on technical skills in projects - you can choose your path with us. We know that individual development is just as unique as people are diverse. Never having adhered to the pressure of moving up a fixed career ladder according to a rigid pattern, we live the truth that it takes a variety of talents, temperaments, and interests to successfully master complex tasks. The right mix is crucial. At EY ifb, you can develop at your own pace and rhythm.

Anna Steinmetzer

PhD Geophysics

Manager,
Technology Consulting,
EY ifb Services GmbH

Pariyanka Arenja

M. Sc. Biophysics

Senior,
Technology Consulting,
EY ifb SE

We to you, and you to us.

At EY ifb, we support each other and keep the doors to communication wide open. We like to share knowledge and foster a culture of open-mindedness and collaboration, where asking questions and providing support is the norm. We are all about experience and the appropriate solutions, regardless of hierarchies. Our team members appreciate this cohesive and relaxed atmosphere, whether in small or large groups, locally or across the globe.

Synergy is our trademark. We also create opportunities beyond work to get to know each other better and to network - be it in social gatherings with colleagues or at larger events. Despite our predominantly decentralized client contact work, we don't just meet virtually, but make real, personal connections.

Stick together

“

I am connected to what's happening right now, up to date and close. That keeps my fingers on the pulse.

”

“

My commitment to climate protection teaches me to be patient and to value long-term results.

Hands on

Andy Beier

PhD Biochemistry

Senior,
Technology Consulting,
EY ifb SE

Dedication is the key to success.

Of course, the result is crucial - but the way we achieve it together is just as significant. We spend a large part of our time with the clients, creating lasting relationships. Exciting tasks await us, where everyone is ready to take on responsibility. Teamwork, respect, and mutual appreciation are as much a focus as our experience. We all develop our talents and receive first-class support through constructive feedback and targeted training.

With an open mind and a flexible approach, we respond to the clients' needs as well as those of EY ifb professionals. At EY ifb, everyone has the opportunity to become an innovator. It pays to take initiative.

Carsten Steffens
Dipl.-Mathematician
Senior Manager,
Technology Consulting,
EY ifb SE

Your needs are important to us.

We value people who broaden their horizons and draw energy from many sources - be it sports, culture, family, or friends. Creativity, perseverance, and curiosity are important qualities to us.

The balance between personal and professional interests is the key to satisfaction. EY ifb professionals enjoy a high degree of flexibility, including the possibility of sabbaticals. To the extent that it is compatible with the project, working from home is normal. If you are looking for international experience, you can even gain it outside Europe.

Our feedback culture is strong. As part of our talent management processes EY ifb professionals regularly have 1-on-1 discussions with their team lead regarding training opportunities and career progression. This allows you to proactively manage and grow your professional career. With us, there is always room for creativity - the possibilities to expand, change, and deepen are endless.

In harmony

“

Just try something new. At EY ifb, I encourage my team to find creative approaches to identify new ways of doing things.

“

Giving everything
as a team, scoring
the decisive goal
⇐ that's what team
sport is all about.

Team players

Whether global or local: Anything is possible.

With locations worldwide, intercultural thinking is normal at EY ifb and a core part of our identity. Cooperative collaboration with people from different cultures and societies enriches us time and again. Every project offers us the opportunity to learn more about different ways of thinking, topics, values, and corporate cultures - and ultimately about ourselves.

The first meeting in another language is fascinating. Working with people who follow other rhythms or reason differently also generates a unique environment. These experiences give us energy to grow. The team members come from different countries and contribute significantly to the open and global atmosphere that characterizes EY ifb.

Violeta Prykhodchenko
M. Sc. Economic Policy
Consultant,
Technology Consulting,
EY ifb SE

EY ifb.

For more than 30 years, we have been working in a far-sighted and future-oriented manner in the field of finance and risk management. With modern methods and technologies, we get the clients into shape for the digital transformation. Our experienced management consultancy focuses on banks and insurance companies worldwide. Our success is based on the vision, talent, and motivation of our dedicated professionals. They are the cornerstone of our success.

We offer a supportive working environment with secure career opportunities and fascinating tasks. Right from the start, we place great emphasis on trust and the opportunity to pursue your personal goals. Our friendly corporate culture, which really sets us apart, gives newcomers a solid start at EY ifb.

Stefan Meyer
PhD Informatics
Consultant,
Technology Consulting,
EY ifb SE

“

As a gamer, I know how crucial teamwork and communication are.

Level up

EY | Building a better working world

EY exists to build a better working world, helping create long-term value for clients, people and society and build trust in the capital markets.

Enabled by data and technology, diverse EY teams in over 150 countries provide trust through assurance and help clients grow, transform and operate.

Working across assurance, consulting, law, strategy, tax and transactions, EY teams ask better questions to find new answers for the complex issues facing our world today.

EY refers to the global organization, and may refer to one or more, of the member firms of Ernst & Young Global Limited, each of which is a separate legal entity. Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. Information about how EY collects and uses personal data and a description of the rights individuals have under data protection legislation are available via ey.com/privacy. EY member firms do not practice law where prohibited by local laws. For more information about our organization, please visit ey.com.
