

Building a better
working world

Audit Seniors

and

Assistant Managers

A Fresh Challenge. It's when you learn something new, achieve more and make a difference. At EY we provide the tools, knowledge and support you need to meet your challenges head on. We'll help you to take control of your career, set your sights higher and reach your full potential.

Great career prospects

You may already have audit experience in a similar environment and now wish to broaden that experience or you may be working for a smaller organisation and now want to gain experience with a large global firm. Ideal candidates will have achieved first time exam passes, have relevant audit experience and have experience, or a keen interest, in the financial services industry.

We will work with you to help you fulfil your career aspirations and achieve your potential, because when our people achieve their best, so do our clients.

For an informal chat or to apply, please contact
