1 Entry Support

We collect information and analyse border control measures and operations at Japanese diplomatic missions. We highlight pathways for entry to Japan and our Q&A briefing calls clarify schedules and identify potential barriers.

2 Operational Support

Japanese quarantine measures require the host company to supervise entrants. We identify operational issues before they arise and design, review and restructure internal processes.

3 Documentation Support

We support and manage the procedures and documentation required for visa applications and immi/emigration, facilitating the process for expats and their families, business visitors, and Japanese nationals.
